SUMMARY

Product Designer with experience owning end-to-end product design across research, interaction, visual design, and developer handoff. Designed AI-powered SaaS and ed-tech products with a focus on clean, modern UI and scalable design systems. Comfortable working in fast-moving teams, navigating ambiguity, and collaborating closely with PMs and engineers while coordinating assets created to ship intuitive products.

EXPERIENCE

Product Designer - AI & SaaS

Jan '26 — Present

columnsproutAI

Remote

Designed end-to-end product design for AI-powered workflows, focusing on clarity, trust, and usability while translating complex systems into intuitive user experiences.

- Translated UX research insights and stakeholder requirements into high-fidelity UI designs, wireframes, and user flows for AI-powered SaaS products, preparing organized files for developer-ready handoff.
- Built and maintained a scalable design system with reusable components, styles, and guidelines to ensure consistency across the product, including brand-aligned assets.
- Collaborated with developers to deliver production-ready designs and ensured smooth handoff through well-structured files and clear specifications created in Figma.

UX/UI Design Intern

May '25 — Aug '25

SATCARD - IIT PALAKKAD

Palakkad

Designed mobile and web applications with a strong focus on usability, interaction clarity, and production-ready handoff in collaboration with engineering teams.

- Designed mobile and web product experiences using low-to-high fidelity prototypes in Figma, managing design-to-development workflows with clear specifications for developers.
- Conducted usability testing with 15+ users, identifying friction points and iterating designs for improved task completion across responsive projects.
- Collaborated with engineering teams to translate designs into production-ready implementations by supplying component specs, assets, and annotated prototypes.
- Focused on building intuitive workflows and reducing cognitive load for users across projects from discovery to delivery.

PROJECTS

columnsproutAI – E-Commerce Customer Intelligence & Ad Optimization Platform, columnsproutAI [Link](#)

Present
India

- Designed the end-to-end UX/UI for an AI-powered e-commerce automation platform, simplifying complex workflows around marketing spend, conversions, and customer insights.
- Created a scalable design system with reusable components, visual tokens, and typography patterns for complex analytical views.
- Designed dashboards and diagnostic workflows to simplify advertising performance, audience exclusions, catalog health, and customer cohort analysis.
- Defined user-centric workflows for AI-powered e-commerce operations, balancing automation, transparency, and user control across complex decision-making journeys.

TUTOZ – Learning App and Website, SATCARD - IIT PALAKKAD [Link](#)

May '25 — Aug '25
Palakkad, India

- Designed the end-to-end learning experience, including dashboards, learning flows, progress tracking, and personalized views.
- Built a scalable design system and created UI assets using Adobe Photoshop and Illustrator.
- Conducted usability testing and iterated the product based on user feedback to improve clarity and retention.
- Website URL: <https://tutoz.in>

MK SKAB - Official Website, MK SKAB [Link](#)

Jul '26
Riyadh, Saudi Arabia

- Owned the project end-to-end, from brand identity and logo design to UX/UI design and website development.
- Created the visual identity and responsive website experience, establishing a cohesive digital presence for the company.
- Managed the complete workflow from design exploration and refinement to final implementation.
- Translated the approved designs into a fully responsive, production-ready website, ensuring visual consistency, usability, and performance across devices.

SKILLS

Product Design End-to-End Product Design, UX Design, UX Research, UX Strategy, Usability Testing, Interaction Design, Rapid Prototyping, Wireframing, Responsive Design, Product Strategy, Design Systems, WCAG Accessibility, Information Architecture, Branding & Visual Identity

Technical Tools Figma, Adobe Illustrator, Adobe Photoshop, Adobe After Effects, Adobe Premiere Pro, Unreal Engine, Blender, Canva, HTML, CSS, GitHub

Professional Skills Time Management, Communication, Cross-functional Collaboration, Problem Solving, Critical Thinking, Creativity, Attention to Detail, Adaptability, Client Presentation, Decision Making

EDUCATION

B. Tech in Computer Science & Engineering, College Of Engineering Karunagappally (GPA: 7.47) '22 — '26
Karunagappally, India
